 Mumbai

Summary

With over 3+ years of experience in data analytics and BI development, I recently transitioned to a new role at Lagozon Technologies Pvt. Ltd. as a Qlik Sense Developer. Prior to this, I worked at ICICI Prudential Life Insurance, where I was part of the MIS team, delivering impactful dashboards and automated reporting solutions using QlikView, Qlik Sense, NPrinting, Sybase SQL, and Excel.

I specialize in transforming complex data into clear, actionable insights that support strategic decision-making and operational excellence. Passionate about data, AI, and automation, I actively explore these areas and am currently pursuing an online master's degree in Artificial Intelligence to further deepen my expertise.

Experience
