## Summary

With over 4 years of experience in Data Analytics and BI Development, I recently transitioned to a new role at Lagozon Technologies Pvt. Ltd. as a Qlik Sense Developer. Prior to this, I worked at ICICI Prudential Life Insurance, where I was part of the MIS team, delivering impactful dashboards and automated reporting solutions using QlikView, Qlik Sense, NPrinting, Sybase SQL, and Excel. I am a Qlik Certified Data Architect, skilled in transforming complex data into clear, actionable insights that drive strategic decision-making and operational excellence. Passionate about data, AI, and automation, I actively explore these areas and am currently pursuing an online Master's in Artificial Intelligence to further deepen my expertise.

## Experience

**Lagozon Technologies Pvt. Ltd.** — Mumbai, Maharashtra

*Business Intelligence Consultant* — April 2025 - Present

- Working with **India's largest automobile company, Mahindra**, on a data analytics project.
- Developed end-to-end dashboards using **Qlik Sense SaaS**, enabling real-time visibility into key business metrics.
- Collaborated with cross-functional teams to gather requirements, design data models, and implement solutions in an agile environment.
- Created **Qlik Automations** to streamline internal processes and reduce manual effort.
- Leveraged **Qlik Insight Advisor** to enable self-service analytics for business users.
- Followed the **Jira** development lifecycle for task tracking, sprint planning, and issue resolution.

**ICICI Prudential Life Insurance** — Mumbai, Maharashtra

*Senior Associate* — April 2022 - April 2025

- Developed and maintained dashboards using QlikView, Qlik Sense, NPrinting, and Sybase SQL to support business decision-making.
- Automated mailers and reports to streamline operations and improve data accessibility.
- Played a key role in creating new processes and procedures, suggesting improvements to current processes and procedures.
- Utilized advanced Excel skills for data manipulation and reporting.
- Spearheaded the adoption of best practices and standards in QlikView and Qlik Sense development, enhancing team efficiency and ensuring consistency across projects.
- Collaborated closely with stakeholders to gather feedback and requirements, iteratively refining solutions to align with evolving business needs and priorities.
